- (b) Draft timetables for Fall and Winter offerings shall be prepared no later than June 1; timetables for intersession courses shall be prepared at least 30 (thirty) working days prior to the commencement of the term. Final course timetables shall be posted at least 15 (fifteen) working days before schedule implementation.

9.2.3 In the event of special program funding, where it is not feasible to meet the requirements of Article 9.2.1 and Article 9.2.2, assignments and scheduling of duties and notification of faculty shall be completed as soon as possible.

9.3 DETERMINATION OF WORKLOAD

9.3.1 In determining the formal assignment of workloads, the following factors shall be taken into account:

- (a) size of classes;
- (b) total number of students dealt with;
- (c) nature of courses;
- (d) number of different courses;
- (e) number of different disciplines taught;
- (f) responsibilities to open students/courses;
- (g) need for, and availability of, instructional support;
- (h) marking requirements;
- (i) approved committee involvement;
- (j) concurrent or other course development activities;
- (k) number of locations at which the employee is required to teach and the travel time involved;
- (l) approved administrative and other non-instructional responsibilities;
- (m) whether the employee is teaching the course for the first time;
- (n) specific instructional needs of students.

9.4 INSTRUCTIONAL YEAR

9.4.1 The regular instructional year for university transfer, advanced and provincial ABE and for career diploma programs shall consist of two (2) semesters. Regular employees may be assigned to teach a single scheduled course in the May-June intersession period not more than once every alternate year, except by consent. Faculty teaching intersession courses will not be required to support open students at the same time, except by Departmental agreement. Faculty not teaching intersession courses and not engaged in approved Professional Development activities shall be required to support open students, conduct curriculum development activities or perform other duties as assigned.

The assignment of duties during intersession periods shall occur as outlined in Article 9.2.1(a).

- 9.4.2 For all other programs, the instructional year shall normally fall within the months September through June.

9.5 CALCULATION OF WORKLOAD: INSTRUCTIONAL UNITS

9.5.1 In order to quantify the major components of an instructional assignment, it is agreed that employees will be assigned instructional units for their various instructional duties and related activities. The total number of instructional units allocated to each employee will be used to determine the employee's overall workload, as outlined in Article 9.5.

- (a) The maximum full-time instructional load shall not exceed fifteen (15) instructional units per week, averaged over the instructional year, and shall not exceed eighteen (18) instructional units in any one duty week.

One (1) instructional unit is defined as:

- (i) 1 hour of direct instruction using lecture format in which new material, requiring preparation, is presented to a scheduled class;
- (ii) 1.8 hours of lab supervision/instruction if a lab assistant is available, to a maximum of 12 hours per week. Should the total assigned hours of lab instruction exceed twelve (12) per week, this weighting may be altered on the basis of a recommendation by the Department Chair in consultation with the employee and Dean or designate.
- (iii) between 1 and 1.6 hours of lab supervision/instruction if a lab assistant is not available. The figure used shall depend upon the amount of work involved in setting up and dismantling the labs, and shall be determined, on a course by course basis, by the Department Chair in consultation with Departmental employees and the Dean or designate.
- (iv) 1.4 hours of instruction for clinical delivery mode;
- (v) 1.8 hours of trade or technical instruction;
- (vi) 1.8 hours of regular instruction for applied business technology, computer applications and tourism programs;
- (vii) 1.6 hours of practicum supervision;
- (viii) 1.6 hours of classroom instruction in ABE, ESL and language classes where there is a combination of lecture, group work, desk work and lab-like activity;
- (ix) 1.6 hours of studio instruction for visual arts, a maximum of 8 hours of which, per week, may be used for supervised studio activity;
- (x) 1.6 hours of classroom instruction, to include a minimum of six (6) hours of Disabled Student Services where applicable, in A.S.E;
- (xi) 3 hours of direct travel to and from a teaching location other than the work location, as assigned in 9.17.1, when the employee

teaches in more than one College campus/centre on the same day or when the employee teaches in a campus/centre located more than sixty (60) km from the home campus/centre.

- (xii) 1.0 instructional unit for every nine (9) assessments where a faculty member is carrying out a college assessment function, not program specific, during the instructional term.

9.5.2 INSTRUCTIONAL UNIT ADJUSTMENTS

Where the complexity of the instructional materials warrant, the allocation of instructional units for any course shall be increased by 20% for any course(s) which the employee has not taught within the previous two (2) years and where no time has been specifically allocated for preparation in advance of the course start date. The amount of preparation time appropriate for any course shall be determined by mutual consent amongst the Dean or designate, Department Chair and departmental employees.

- (a) Where there is a substantial change in course content during the academic year, and the department, in consultation with the Dean or designate, determines that immediate course modification is required, the additional development time will be provided for faculty charged with implementing the changes.

- (b) Instructional Unit Adjustment

- (i) The maximum full-time instructional workload for faculty teaching Mathematics and Science Laboratory courses shall not exceed eighteen (18) student contact hours in any one duty week.

- (ii) Sessional Faculty Teaching Non-Laboratory Courses

When a sessional employee teaches a non-laboratory course and the aggregate number of students in those courses is equal to 90% of the capped enrolment, each course shall be increased from 20% to 25%.

- (iii) Sessional Faculty Teaching Laboratory Courses

A sessional faculty teaching a science course with a lecture and laboratory component shall be recognized at 30% workload.

9.5.3 OPEN STUDENTS

- (a) Instructional units shall be determined on the following basis for employees instructing open students (with the exception of Office Administration):

- (i) 0.75 instructional units per week for every six (6) students in non-lab open courses;
- (ii) 1.2 instructional units per week for every six (6) students in open courses with a regular lab component where no laboratory assistant is present.
- (iii) 1.0 instructional unit per week for each 1.5 units of open courses tutored, with shorter courses to be pro-rated on unit value, as long as such courses are not being taught concurrently in a scheduled format.

When faculty are employed to deal exclusively with open students as content specialists on a regional or College-wide basis, this Article shall not apply unless three (3) or more courses are involved. For every additional 1.5 unit course beyond two (2) courses, 0.5 instructional units shall be assigned per week, with shorter courses pro-rated on unit value. Article 9.15.4 shall apply in the event the faculty member is assigned course supervisory responsibilities. Agreement of the Union shall be sought for all new positions of this nature prior to recruitment.

- (b) The workloads of faculty instructing open students shall be evaluated at the start of each month, and shall include course extensions. It is recognized that the number of open students assigned to an employee may sometimes “peak” in January due to an overlap of completing students with new registrations. This peak will be ignored in calculating workloads for that month provided the situation does not persist into February.

9.6 STUDENT CONSULTATION HOURS

Department Chairs will determine, in consultation with their departments and the appropriate Dean or designate, the appropriate number of office hours required on a weekly basis for faculty to be available for student consultation. All faculty shall post their timetables with office hours indicated. In programs where students have constant access to the faculty, the office consultation will be by appointment only.

9.7 COURSE PREPARATION IN ACADEMIC AND CAREER PROGRAMS

Where a faculty member has not taught a course before, then a faculty member shall receive one week’s preparation time to a maximum of two weeks based on their workload assignment.

Faculty in academic and career programs shall not be expected to prepare more than three (3) different 3-credit courses in a given semester. This may be exceeded under

the provisions outlined in Article 9.10.2 (Underload), or by mutual agreement between the employee and Dean or designate.

9.8 OTHER DUTIES

In the event the College requires faculty to undertake, on a regularly occurring basis, specified duties not mentioned elsewhere in Article 9, such duties shall be considered part of the employee's workload to an extent to be determined by consultation between the employee, the Department Chair and the Dean or designate.

Examples of such duties include, but are not limited to, such things as the arrangement and supervision of work experience placements, assessment related activities, regularly scheduled group advising or pre-registration counselling sessions and region-wide responsibilities, apart from those exercised by Department Chairs.

Where deemed appropriate by the parties, such duties may be assigned an instructional unit value to be used in the quantification of overall workload. The assignment of instructional units shall be agreed upon between the Employer and the Union in consultation with the Department Chair and department employees.

9.9 NUMBER OF COURSES AND SECTIONS

The number of scheduled courses faculty will be assigned in a given semester will vary from program to program and may vary from campus to campus. In academic courses at the university transfer level, and in two-year career diploma programs, the assignment for a full-time faculty member shall not exceed four (4) scheduled courses per semester. An additional section/preparation may be added under the provisions outlined in Article 9.10.2 (Underload). The number of courses may be prorated for courses involving more or fewer than three (3) instructional units per week. This provision shall not be enforced to the extent that it exceeds the workload as specified in Article 9.5.

9.9.1 COMPUTER SCIENCE FACULTY

A full (100%) workload teaching only first year courses will be four (4) sections and three (3) preps in each semester.

A full (100%) workload teaching only second year courses will be three (3) sections and three (3) preps in each semester.

9.9.2 COMPUTER GRAPHICS FACULTY

A full (100%) workload in Computer Graphics will be seven (7) sections and six (6) preps averaged over the academic year.

9.9.3 INTERSESSION

Instructors in Computer Science and Computer Graphics with a full (100%)

workload will not be required to teach an intersession course in the May – June period.

9.9.4 HOSPITALITY AND TOURISM FACULTY

A full (100%) workload will be five (5) sections (3 credits each) and five (5) preps in each semester.

9.10 STUDENT LOAD: UNIVERSITY TRANSFER, ADVANCED AND PROVINCIAL ABE, CAREER DIPLOMA PROGRAMS

9.10.1 The student load, which is the total of open and/or scheduled students, shall not at any time exceed one hundred and twenty five (125) students per faculty, unless special circumstances apply. These exceptions shall be negotiated separately and shall include instances where technology or additional support is provided.

To address specific instructional situations, the following guidelines shall also apply:

- (a) 115 students shall be considered the maximum load for English faculty, except in English Composition, where the maximum shall be 100 students;
- (b) Each student in laboratory science courses with a scheduled, regular laboratory component shall count as 1.5 students for the purposes of calculating student loads.
- (c) The calculation of student numbers for determining workload shall be based on enrolments at the Stable Enrolment date (i.e. the last day students can register).

9.10.2 STUDENT UNDERLOAD

- (a) In any semester where academic, advanced or provincial level ABE, or Career diploma faculty carrying a full workload as defined in Article 9.5 have student workloads more than 25% below the maxima defined in Article 9.10.1, then their workload may be adjusted by one, or a combination of, the following expedients, as determined by consultation among the Department Chair, the Dean or designate and the employee, who shall ensure that the amount of any additional duties is commensurate with the extent of the underload. Part-time employees shall be subject to the same provision, pro-rated according to the percentage of their contracts.

Additional duties may be chosen from, but shall not be confined to the following list:

- (i) teaching a maximum of one (1) additional course, either in the semester in which the shortfall occurs, or in the next semester or intersession period. Additional instructional units accrued in this way shall not be considered in calculating overload;
 - (ii) engaging in new or ongoing course development activities;
 - (iii) accepting open students;
 - (iv) acting as a marker and/or course supervisor.
- (b) It is understood that every possible effort shall be made to prevent underloads arising through lack of adequate instructional space or facilities. Priority in assigning classrooms or other resources shall be given to faculty who might otherwise be forced into an underload situation. Where an underload situation arises on account of insufficient space or resources, no faculty shall be required to teach an additional course or section except by consent.

9.11 SCHEDULED SECTION/CLASS SIZES

9.11.1 Academic and Career Diploma classes shall not exceed 35 students except in those situations where it is deemed appropriate by the department or employee to offer lectures to larger groups. The following limits shall also be observed:

- (a) Part-time vocational programs: Maximum class sizes shall be determined by considering the following factors:
 - (i) limits imposed by external agencies;
 - (ii) practical component requirements;
 - (iii) facilities and location for delivery.

The maximum number of students in any part-time vocational upgrading course will be determined in consultation among the instructors, Department Chair, and the Dean on a course-by-course basis taking into consideration the delivery method and limitations of available training equipment.

When employees covered by this Agreement are involved in contract service work, all hours worked in excess of the weekly workload as defined in Article 9.5 shall be banked and taken as time off between courses.

9.13 OVERLOAD

It is recognized that it is in the best interests of both the employer and employee to avoid overload situations. Acceptance of an overload in any semester is voluntary, but when such overload occurs, the Employer shall make every reasonable effort to arrange a corresponding reduction in workload in the next semester. In addition, the following provisions shall apply:

- 9.13.1 No appointment shall be approved that places an employee in an overload situation, unless there is a corresponding workload reduction in the following semester.
- 9.13.2 If an employee applies for work through the posting process that would place the employee in an overload position, then the employee shall advise their Dean, Department Chair and Department of the application, and give up part of their existing workload in order to maintain their workload at 100%. If it is not practical to adjust the workload, then the employee's application for the position will be denied.
- 9.13.3. In an emergency, when there is no alternative but to assign work that places a faculty member in an overload situation in one semester with no opportunity for a reduction in workload in the next semester, then the employee shall be compensated for work in excess of 100% at the rate of 1.5 times the employee's regular rate of pay for that work.

9.14 CURRICULUM DEVELOPMENT

- 9.14.1 For the purposes of this section, curriculum development for instructional faculty consists of major development or revision of courses. For non-instructional faculty the equivalent activity will consist of approved projects that enhance service delivery and promote excellence. A report describing the completed curriculum development will be filed with the Dean, or designate.

Regular part-time instructional employees shall have the same allocation, prorated to the proportion for their contract. The calculation of curriculum development time shall include any increases to their regular assignment.

In the event there is no Department Chair, faculty member may seek written support for their applications from other colleagues or the Department Chair of the most closely related Department.

- 9.14.4 When curriculum development occurs concurrently with instructional activities, the time required for development activities shall be calculated as part of the regular workload as defined in Article 9.5, on the basis of two (2) development hours equals one (1) instructional unit. This provision shall be waived when curriculum development is undertaken to adjust work underloads as described in Article 9.10.2. Curriculum Development will not be scheduled during approved vacation or authorized Professional Development.

9.15 COURSE SUPERVISION/MARKERS FOR U.T., PROVINCIAL AND ADVANCED LEVEL A.B.E.

- 9.15.1 Each open course shall be managed regionally by a Course Supervisor who shall assume the following responsibilities:

9.15.4 In calculating the workload of course supervisors, each 3 credit course supervised shall contribute 0.2 to 1.0 instructional units per week to the workload of the employee. The Department Chair in consultation with the department and appropriate Dean or designate, shall determine the value within this range, taking into consideration the requirements of the specific course.

9.16 DEPARTMENT CHAIRS

The release time required to perform the administrative functions of the Department Chair positions shall be deducted from the total workload of the Department Chair with no less than fifty percent (50%) of this release taken from direct instructional duties.

9.17 ASSIGNMENT OF TEACHING LOCATIONS OR TEMPORARY DUTIES

9.17.1 An employee shall be assigned to work at a specific campus or centre. Any alteration to the above must be by mutual agreement between the employee and the Employer. Employees shall not be required to teach at more than one other college location within a semester, except by consent.

A list of potential substitutes shall be compiled and circulated at the beginning of each semester.

9.19.2 In the event a faculty member requires a substitute, they shall provide as much advance notice as possible, and the appropriate administrator or designate shall arrange for a substitute. In emergencies, when advance notice is not possible, the faculty member may assist in arranging substitute coverage as they are able.

The Department Chair, where established, and the Dean shall determine the amount of preparation time allocated to substitute faculty.

The character of this report shall be established by the employee, the Department and the Dean or designate as part of the determination of the assignment.
- (f) The process of selecting exchange employees from other institutions should be similar to that for faculty appointments to the College. A review of credentials will be required along with an alternative to a personal interview by the host department of the College if a personal interview cannot be arranged.
- (g) The Employer shall disseminate information on faculty exchange possibilities and shall provide the Union with the information.

11.9.5 Should an exchange prove unsatisfactory, or fail altogether, for any reason, from the viewpoint of the College or the visiting employee, then the College employee on assisted exchange leave shall not be held in any way responsible for any expenses or problems occasioned by this failure.

- (d) The Union shall be advised of the names and initial placement of all employees upon confirmation of employment.
- (e) Faculty will be advised in writing of their initial placement on the salary scale. Changes resulting from a review will be rectified by adjusting the initial placement on the salary scale and shall be retroactive to the date of appointment.

In the event of an error in the initial placement on the salary scale, discovered and documented within a period of one (1) year of the initial placement, by either the College or the faculty involved, adjustment of the placement shall occur, retroactive to the date of appointment.

In such cases, the new regular employee shall receive the higher of either the initial scale placement calculation in this agreement or the most recent salary step at the other relevant institution. This provision will only apply when the

- iii. In the case of absence due to illness, no change in increment date shall be made except when the absence is for more than one hundred and twenty (120) working days.
- iv. Leaves of absence with pay shall not result in a delay of annual increments.

(b) Sessional Employees

- i. Sessional employees will begin accruing service hours based on their work assignments and will receive a one-step increment as they meet necessary service-based threshold hours worked equivalent to that of a full-time regular employee. Service threshold hours will be:

 - 1547 for non-instructional
 - 1326 if there is a mix of instructional and non-instructional.

- 14.3.4 The Employer will deposit the employee's pay cheques in an account at a financial institution designated by the employee.

14.4 PAYMENT FOR PREPARATION OF COURSES NOT TAUGHT

The college agrees to maintain an Employee Assistance Program.

15.2 NO DISCRIMINATION

The parties agree that the provisions of the Human Rights Act of British Columbia related to employment shall apply as though included in, and forming part of, this Agreement.

Further, the parties agree there shall be no discrimination. Without limiting the generality of the foregoing, personal lifestyle, sexual orientation, physical disability unrelated to job performance, previous and current psychiatric treatment unrelated to job performance, and number of dependents shall not constitute cause for discrimination.

The Employer further agrees that it will not discriminate against any person who is authorized to act on behalf of the Union for carrying out duties proper to these positions.

15.3 SEXUAL AND PERSONAL HARASSMENT

All faculty have the right to work in an environment free from sexual and personal harassment.

15.3.1 SEXUAL HARASSMENT

Notwithstanding the definition(s) of harassment that may appear from time to time in the College's Human Rights Policy, for the purposes of this Article, sexual harassment includes:

- (f) sexually oriented remarks or behaviour, which may reasonably be perceived to create a negative environment for work and study.

15.3.2 ACADEMIC FREEDOM RELATED TO SEXUAL HARASSMENT

Neither the College Policy nor any definition of sexual harassment defined in Article 15.3.1 limits a faculty member's right to present sexually explicit material, sexually oriented literature or pornographic material within an appropriate academic context subject to the norms of academic discourse and investigation.

15.3.3 PERSONAL HARASSMENT

Notwithstanding the definition(s) of personal harassment that may appear from time to time in College policies and procedures for dealing with personal harassment, personal harassment includes:

- (a) physical threat, intimidation, or assault, or unwelcome physical contact such as touching, patting, pinching or punching, or
- (b) unwelcome behaviour or comment that is directed at, or offensive to, any employee that demeans, belittles, causes personal humiliation or embarrassment to that faculty member or any other employees, or

- (d) the improper use of power or authority to endanger a faculty member's job, threaten the economic livelihood of the faculty member, or in any way interfere with or influence the career of such a faculty member. This includes misuse of power such as intimidation, threats, blackmail or coercion.

Comments or actions that serve a legitimate, work-related purpose shall not be deemed to constitute personal harassment.

15.3.4 PROCESSING OF HARASSMENT COMPLAINTS

- (a) Employees may process harassment complaints either through the Grievance Procedure (Article 5) or the appropriate College policy. However, when the Grievance Procedure is invoked, use of the College's Human Rights Policy is precluded.
- (b) Nothing in this Article shall preclude an employee from filing a harassment complaint under the Human Rights Act.
- (c) An employee who chooses to file a complaint in accordance with the College's Human Rights Policy, and does not achieve a satisfactory resolution, may file a grievance and normal time limits shall be waived. The employee may commence the grievance at Step 2 in the Grievance Procedure if they wish.
- (d) All participants in the course of investigating a complaint of harassment shall have due regard to the privacy and confidentiality of any and all persons involved in the complaint.

15.3.5 HARASSMENT COMPLAINTS FILED THROUGH THE GRIEVANCE PROCEDURE

Complaints processed through the grievance procedure shall be subject to the following:

- (a) In the event the person who is the subject of the complaint is the management representative at any step of the grievance procedure, or if the employee has reason for going to an administrator other than the immediate supervisor, the Union, in consultation with the Employer, will identify another appropriate management representative.
- (b) An arbitrator, in the determination of a complaint of harassment, shall take reasonable steps to protect the interest of all parties in privacy and confidentiality in the determination of procedural and evidentiary matters, subject to the requirement of fairness to all parties.
- (c) Where the complainant and the person who is the subject of the complaint are both members of the Union, then the arbitrator seized with a grievance of harassment shall also have jurisdiction in respect of any grievance arising from related discipline of the employee who is the subject of the complaint.
- (d) Information relating to the grievor or alleged harasser's personal background or lifestyle shall not be admissible during the grievance or arbitration process and shall not be used as the basis for a judgment or decision.

- (e) Time limits shall be waived for grievances filed under this Article.

15.3.6 UNION REPRESENTATION FOR FACULTY

15.4 TECHNOLOGICAL CHANGE

15.4.1 DEFINITION OF TECHNOLOGICAL CHANGE

For the purposes of this Agreement the term "technological change" shall be understood to mean changes in the manner in which the Employer carries out educational operations, delivery and services where such change or changes significantly affect the terms and conditions or security of employment of members of the Union or alter significantly the basis on which this Agreement was negotiated.

15.4.2 Such changes as anticipated above shall include, but not be limited to:

- (a) The introduction, because of technological change or development, of equipment, material or processes different in nature, type or quantity from that previously utilized.
- (b) A change related to the introduction of this equipment, material or process, in the manner in which the Employer carries out its educational objectives and operations.
- (c) A change in work methods, organization, operations, or processes which would result in the layoff or reduction in workload of one or more employees.
- (d) A structural change in the mode of instructional delivery.

15.4.3 When the Employer intends to introduce a technological change:

- (a) The Employer agrees to notify the Union as far as possible in advance of its intentions and to update the information provided as new developments arise and modifications are made.
- (b) The foregoing notwithstanding, the Employer shall provide the Union, at least ninety (90) calendar days before the introduction of a

technological change is intended, with a detailed description of the change it intends to carry out disclosing the anticipated impact on employees.

15.4.4 This notice mentioned above shall be given in writing and shall contain pertinent data, including:

- (a) the nature of the change;
- (b) the date on which the Employer proposes to effect the change;
- (c) the approximate number, type and location of employees likely to be affected by the change;
- (d) the effects the change may be expected to have on the employees' working conditions and terms of employment.

15.4.5 NOTICE TO AFFECTED EMPLOYEES

The notice mentioned in Article 15.4.3 and the information specified in Article 15.4.4 shall also be given to the faculty who will be affected by the technological change.

15.4.6 CONSULTATION

Where the College has notified the Union of the intention to introduce technological change(s), the College and the Union will undertake to meet within thirty (30) calendar days of giving notice, to hold constructive and meaningful consultation in an effort to minimize any adverse effects of technological change on employees.

15.4.7 OPTIONS IN THE EVENT OF ELIMINATION OF A POSITION THROUGH TECHNOLOGICAL CHANGE

- (a) In the event that the College implements technological change as defined in Article 15.4.1 and Article 15.4.2, following the one hundred and twenty (120) calendar day notice period, the College will:
 - (i) offer the employee an existing, equivalent, vacant position provided the employee is qualified in accordance with the selection criteria for the position, or
 - (ii) the employee shall be given the option of selecting either:
 1. severance, as defined in Article 6.7 of this Agreement, or
 2. layoff and having their name placed upon the recall list, and then being subject to the full recall and displacement rights as defined in Article 6.6.5 of this Agreement.

- (b) During the period of employment between notice of reduction on account of technological change and reduction taking effect, employees shall retain their level of earnings regardless of any transfer or reduction of duties performed by the employee.

15.5 COPYRIGHT

See also the 2019-2022 Common Agreement Article 5.

15.5.1 When an employee is assigned by the Employer to develop instructional materials, copyright law provides that the ownership of copyright of these materials rests with the Employer. Recognizing that the potential for royalties is strong motivation to authors and creators of innovative instructional materials, the College shall not unreasonably withhold a request for copyright to be released to the author(s). The College shall retain the right in perpetuity and without penalty to use the materials in any way it sees fit, providing authorship is acknowledged.

15.5.2 For the purposes of this Agreement, copyright material shall include but not be limited to written material, artistic material, software, video or audio tapes, training aids, audiovisual materials or test equipment.

15.5.3 Notwithstanding the provision outlined in Article 15.5.1 for the transfer of copyright, the College may under special circumstances require that a percentage of royalties paid to, for, or on behalf of the author be paid to the Employer to defray a portion of the costs of the development or production of materials. The amount to be recovered, to a maximum of ten percent (10%) of royalties received, will be a matter for negotiation between the College and the author at the time that copyright is ceded.

In the event the College considers that the nature of the materials being developed reasonably justifies an expectation of more than ten percent (10%) of any royalties earned by the author(s), then at the time the assignment is made, the College shall negotiate with the author(s) the maximum percentage of royalties payable, and these shall not exceed the original development costs.

15.5.4 In the event creation of the materials has not been assigned by the Employer and no College space or equipment has been used, both ownership and copyright shall rest with the employee.

15.6 PATENTS

15.6.1 The development of patentable inventions or discoveries is not the primary purpose of the research activities of the faculty. However, it is recognized that certain patentable inventions and discoveries may result from such work. To provide incentive for the development and utilization of

discoveries arising out of research performed for the Employer, with the assurance that such inventions will not be used in a manner contrary to public interest, it is agreed that:

- (a) The employee shall share with the Employer a proportion of the royalties derived from such patents, up to a maximum of ten percent (10%), when the activities that led to a patentable invention are part of the work for which the Employer has paid the employee, or the activities involved the use of any College space or equipment.
- (b) In the event the patent has derived from activities outside the work performed for the Employer, and no College space or equipment has been used, both ownership and copyright shall rest with the employee.

15.7 EXEMPT AND SAVE HARMLESS

The Employer agrees to:

- 15.7.1 exempt and save harmless each employee from any liability action arising from the proper performance of their duties for the Employer; and
- 15.7.2 assume all costs, legal fees and other expenses arising from such action; and
- 15.7.3 provide advance notice to those employees who may be affected by an investigation, inquiry or complaint under this Article as soon as the College becomes aware; and
- 15.7.4 Provide full disclosure to potentially affected employees and former employees of all matters concerning a liability action under this Article, subject to the legislation pertaining to the Freedom of Information and Protection of Privacy Act.

No employee shall be disciplined for refusing to work where the employee perceives that they are at risk of injury due to violence. Violence means the attempted or actual exercise by a person of any physical force so as to cause injury to a worker, and includes any threatening statement or behaviour which gives the worker reasonable cause to believe they are at risk of injury. Such incidents shall be reported immediately by the employee to the appropriate administrator.

15.9 ACADEMIC FREEDOM

Academic freedom includes the freedom to express views, to encourage and engage in discussion and to criticize ideas. Academic freedom carries with it the duty to use the freedom in a manner consistent with the scholarly obligation to base research and teaching on an honest search for knowledge.

15.11.1 Conflicts of interest include situations where an employee's personal and private affairs or financial interests conflict with the employee's duties or responsibilities or obligations.

15.11.2 Employees shall be free to undertake other forms of employment provided these do not compromise, conflict with or impair their duties, responsibilities or obligations to the College. Full-time employees shall disclose to the College the nature of any non-College employment in which they are engaged.

- 15.11.3 Where an employee considers that a conflict of interest exists, the employee shall notify the Employer in writing.

In the event that the manner cannot be resolved in this way, the issue will be referred to the appropriate Dean who will make a determination and prescribe a course of action.

Accordingly, proposals regarding the sharing of work will only be considered when one regular, full-time position is shared equally between two employees, resulting in two 50% positions.

- 15.12.1 The affected employee shall indicate in writing the reason for the request including the hours and days of the week the employee wishes to share, and with whom the employee contemplates the job sharing arrangement. The request must be submitted at least three (3) months prior to the anticipated start of a normal work term.

Re: Cost of Living Adjustment

Definitions

“General Wage Increase” or “GWI” means the overall general wage increase expressed as a percentage.

“Cost of Living Adjustment” or “COLA” means a percentage-based general wage increase adjustment provided in accordance with this Memorandum of Agreement. COLA is an upward adjustment applied to and folded into all wage rates.

The “annualized average of BC CPI over twelve months” (AABC CPI) means the *Latest 12-month Average Index % Change* reported by BC Stats in March for British Columbia for the twelve months starting at the beginning of March in the preceding year and concluding at the end of the following February.

The “Latest 12-month Average Index”, as defined by BC Stats, is a 12-month moving average of the BC consumer price indexes of the most recent 12 months. This figure is calculated by averaging index levels over the applicable 12 months.

The *Latest 12-month Average Index % Change* is reported publicly by BC Stats in the monthly BC Stats *Consumer Price Index Highlights* report. The BC Stats *Consumer Price Index Highlights* report released in mid-March will contain the applicable figure for the 12-months concluding at the end of February. The percentage change reported by BC Stats that will form the basis for determining any COLA increase is calculated to one decimal point. For reference purposes only, the annualized average of BC CPI over twelve months from March 1, 2021 to February 28, 2022 was 3.4%.

COLA

The COLA will be applied as applicable to the GWI effective on April 1, 2023 and April 1, 2024. The COLA will be calculated by determining the difference between the AABC CPI and the annual general wage increase to the maximum COLA prescribed that year in Wage Schedule – Grids.

April 2023

If the 2023 AABC CPI exceeds the April 2023 GWI of 5.5%, then, on April 1, 2023 the April 2023 GWI will be adjusted upwards to reflect a COLA equal to the difference between the April 2023 GWI and the 2023 AABC CPI up to a maximum of 1.25%.

April 2024

If the 2024 AABC CPI exceeds the April 2024 GWI of 2.0%, then, on April 1, 2024 the April 2024 GWI will be adjusted upwards to reflect a COLA equal to the difference between the April 2024 GWI and the 2024 AABC CPI up to a maximum of 1.00%.
